JITENDRA KUMAR SWAIN

QA Automation Intern — Test Engineer — Software Developer
Bhubaneswar, Odisha — +91 9556720674 — jitendrakumarswain75@gmail.com
LinkedIn — GitHub

Professional Summary

QA-focused Software Engineer with hands-on experience in functional, regression, smoke, integration, and API testing. Skilled in test case design and execution, REST API validation using Postman, SQL-based database validation, and defect identification and tracking. Strong foundation in Java, JavaScript, HTML5, CSS3, REST APIs, MySQL, Git, and Agile Scrum. Currently developing hands-on expertise in Playwright, TypeScript, Node.js, and web UI/end-to-end test automation.

Technical Skills

Test Automation: Playwright (Learning), TypeScript (Learning), UI Automation, End-to-End Testing, Automated Testing
Software Testing: Test Case Design, Test Scenarios, Functional Testing, Regression Testing, Smoke Testing, Integration Testing, API Testing, Defect Reporting, Bug Life Cycle
API Testing: Postman, REST APIs, HTTP Methods, JSON, Request/Response Validation, HTTP Status Codes
Programming: Java, JavaScript, TypeScript (Learning), SQL, Python (Basics)
Web Technologies: HTML5, CSS3, JavaScript, React.js, DOM, Web Application Testing
Backend: Spring Boot, Spring MVC, Hibernate (JPA), REST APIs, Servlets, JSP
Database: MySQL, PostgreSQL (Basics), MongoDB (Basics), SQL Data Validation
Tools: Git, GitHub, Postman, Maven, Docker (Basics), Linux, VS Code, IntelliJ IDEA, Eclipse, Node.js (Learning), npm
Methodologies: Agile Scrum, Sprint Planning, Daily Stand-ups, Defect Tracking, Release Validation

Professional Experience

Trainee Test Engineer **Mar 2025 – Jul 2025** *PTW* *India*

- Performed functional, regression, smoke, and integration testing to validate application functionality and software releases.
- Designed and executed test cases and test scenarios based on application requirements and expected behavior.

Projects

FoodBox Web Application

- Engineered a full-stack food ordering application using Java Servlets, JSP, JDBC, MySQL, HTML5, CSS3, and JavaScript.
- Implemented authentication, restaurant management, menu catalog, cart management, and order processing modules.
- Designed relational database schemas and implemented CRUD operations using JDBC and the DAO design pattern.
- Applied MVC architecture to separate presentation, business logic, and data-access layers for maintainable code.
- Implemented server-side request handling, session management, input validation, and exception handling.

Travel Booking System

- Developed a full-stack travel booking application using Spring Boot, Hibernate (JPA), MySQL, HTML, CSS, and JavaScript.
- Built and validated REST APIs for user registration, destination search, trip booking, booking history, and cancellation.
- Performed functional validation of booking workflows, API behavior, and backend database operations. “‘

QA Automation Learning

- Learning Playwright with TypeScript for web UI and end-to-end test automation.
- Practicing web application test automation for common workflows such as login, form validation, navigation, and API-integrated functionality.

Certifications

- API Testing with Postman
- SQL for Database Validation
- Java Full Stack Development
- Spring Boot Development
- REST API Development

Additional Skills

Problem Solving |Analytical Thinking |Attention to Detail |Defect Analysis |Test Case Design |API Validation |Team Collaboration |Agile Development
